"Transforming Knowledge into Innovation, Ideas into Technology, and Aspirations into Achievements."

Dear all
Greetings from the Editorial Desk!

A Month of Learning, Innovation, Achievement & Excellence
October 2026 at Dronacharya Group of Institutions (DGI), Greater Noida, was marked by technological advancement, innovation, and a continued commitment to academic and professional excellence.

The month witnessed a range of technical activities, including workshops, hands-on training sessions, project-based learning, technical competitions, and knowledge-sharing initiatives that encouraged students to explore emerging technologies and engineering applications.

Students actively engaged in areas such as Artificial Intelligence, Machine Learning, Robotics, Internet of Things (IoT), programming, electronics, and interdisciplinary research, strengthening their technical knowledge and practical problem-solving abilities. Various academic and co-curricular initiatives provided a platform for students to demonstrate creativity, teamwork, analytical thinking, and innovative approaches to real-world challenges. These experiences helped bridge the gap between theoretical concepts and practical implementation while enhancing industry-oriented competencies. Through its continuous focus on experiential learning, research, technological innovation, and skill development, DGI remains dedicated to nurturing future-ready engineers, responsible professionals, and technology-driven leaders.

Industrial Visit to WIKA Instruments India Pvt. Ltd.

1 October 2026

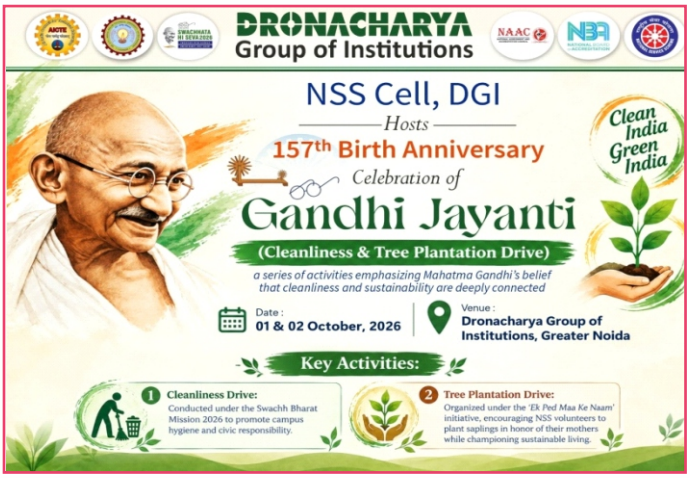

Department of Mechanical Engineering, Dronacharya Group of Institutions, Greater Noida, organised an industrial visit to WIKA Instruments India Pvt. Ltd., Ghaziabad, on 1st October 2026, with the participation of 26 students along with the Faculty Mr. Ankur Sachdeva and Mr. Vishnu Kuntal under the guidance of Dr. Shailesh Kumar Singh (HOD, ME), Dr. Pawan Sharma (HOD, APS). During the visit, students explored industrial measurement and instrumentation processes and gained practical insights into manufacturing, assembly, inspection, testing and quality control. The visit helped them connect theoretical knowledge with industrial applications while understanding the importance of precision, workplace safety, quality assurance and professional discipline in modern manufacturing.
