

DRONACHARYA Group of Institutions

B-27, Knowledge Park – III, Greater Noida, Uttar Pradesh – 201308
Approved by: All India Council for Technical Education (AICTE), New Delhi
Affiliated to: Dr. A. P. J. Abdul Kalam Technical University (AKTU), Lucknow

Name of the Subject: Cyber Security

Faculty Name: Ms. Papiya Mukherjee

Innovation Practices: Collaborative Learning

Students Involved: 3rd Semester

Collaborative teaching involves faculty members working together to create an interdisciplinary, interactive, and team-based learning environment. In Cyber Security education, this approach fosters a deeper understanding of the subject by integrating diverse expertise, real-world scenarios, and teamwork, which are crucial for tackling complex Cyber Security challenges.

Collaborative teaching between institutions for Cyber Security education involves joint efforts by faculty, resources, and expertise to provide an enriched learning experience. This approach leverages the strengths of multiple institutions, fostering innovation, broader perspectives, and access to cutting-edge tools and practices in Cyber Security.
