

Dronacharya Group of Institutions, Greater Noida

Research & Development Appraisal Policy

Object

Research and Innovation are an integral part of institute's vision and mission, upgradation and promulgation of knowledge remain at the core of the Institute's working. All Faculty members are required to explore its institutional ancestry, resources, talents and capacities of current staff, and its realistic, practical, opportunities. Research talent is an asset, so the recognition, retention, and recruitment of well-trained, exuberant, and innovative researchers should be practised. DGI expectations of research performance should be in tune with teaching .

The research policy has been introduced to gauge the performance of the researchers along with a strict monitoring and assessment. This document is intended to encourage faculty to contribute and work in area of research publication, project and consultancy.

Research Challenges in DGI Greater Noida

1. Increase the Volume and Impact of research Across Every Discipline
2. Improve Use and Support of Core Research Facilities.
3. Collaboration with Foreign Universities/International Collaboration.
4. Consultancy and Extension Activities.

Ethics in Research

6. The basic responsibility of the Research and Development Cell is to ensure a competent review of all ethical aspects of the project proposals received and execute the same free from any bias and influence that could affect their objectivity. Academic integrity, in the broadest sense, refers to the set of professional ideals and ethical responsibilities that guide our research, writing, teaching, and collegial relation at the institution and in the community. Unfair means, plagiarism, fabricating or falsifying data, collaborating without authorization or misrepresenting one's contribution in group work, submitting false information in any form, or purposefully altering, impeding, or destroying another person's work are all examples of academic integrity infractions. Academic integrity includes intentionally and knowingly abetting academic dishonesty or research misconduct, as well as failing to report an occurrence. To maintain the academic integrity by student and faculty the institute has constituted ethics committee.

1. Ethics for Faculty and Student

7. Every Faculty and Student (Undergraduate/Postgraduate) of Dronacharya Group of Institutions needs to follow ethical practices as laid down by the Institute code of professional ethics. Faculties and students have to follow these ethics while writing any report/thesis/paper and should use the available resources of the institute.

2. Plagiarism

8. The Institute is strictly against Plagiarism and respects original and authentic findings. Plagiarism is commonly defined as taking someone else's idea with or without their permission and claiming it as your own either intentionally or unintentionally or sometimes may be carelessly. This includes all published or unpublished material in any form i.e. printed or handwritten. This applies to the material in electronic form too. Copying data from a source without proper acknowledgement to the source also is a form of plagiarism. Every faculty and student must avoid Plagiarism. Hence, first the knowledge of what Plagiarism actually means and how it can be avoided should be clearly known by them. For this they are guided and may take the help of University of Oxford's is available. The avoidance of plagiarism is one of the most important responsibilities of faculty

members and students. They have a collective responsibilities to understand precisely what plagiarism is, and how they can avoid it.

3. Turnitin

The Institute uses Turnitin to detect plagiarism of the works submitted by the faculty members and students. The resource if copied would be easily detected by the Turnitin service which can even find closely related or similar content copied from various books, journals, magazines, newspapers, available on internet and those which are copyrighted.

4. Unethical Practices

The Institute is against any unethical practices by the faculty and students. The include dishonesty, wrong intentions and any malpractices during examination, assessment and other unethical participation in different activities and event. The unfair means during the examinations is dealt by guidelines/rules provided by the affiliating University. Institute has right to take action against the reported cases of plagiarism. The college encourages and praises original works and also helps those facing difficulties in submission of their works.

5. Composition of Ethics Committee

1	Director	Chairperson
2	AQAC Coordinator/Head	Convener
3	All Academics Head of the Department	Member
4	One Senior Professor (Special Invitee)	Member

The Role and Responsibility of Committee:

- The Committee takes reported case of unethical practices against any students/ faculty.
- Every case is reviewed by the committee as per procedure/guidelines/rule prescribed by the competent authority in this regard (Affiliating University/AICTE/UGC)
- Depending upon the severity of case the committee suggest the suitable action as deem fit as per the guidelines. The general action against such cases are as.
