

VIRTUAL INTERNSHIP 6.0

✧ What's in it for you?:

- **In-depth Technical Knowledge:** Gain hands-on experience in your chosen field of technology.
- **Project-Based Learning:** Get practical experience working on a project.
- **Expert Guidance:** Learn from industry leaders and become part of a community of like-minded individuals.
- **Virtual Connect:** Continue to attend college while engaging in 8 weeks virtual internship.

👤 Who can apply?:

- **Eligibility:** Applicants must have passed their 12th Standard or equivalent or higher examination from a recognized Board or University, and must be currently pursuing graduation/post-graduation or have completed graduation.
- **Commitment:** We're looking for enthusiastic learners committed to engaging in an 8-week virtual internship.
- **Important Note:** This internship is designed to provide project experience to students. Therefore, working professionals and alumni of previous batches should not apply.

How to apply?

Choose a technology area (Artificial Intelligence, Angular Full Stack, Python, Java Tech Stack or Data Visualization) you would be most interested in for the project and complete self nomination before June 2, 2025.
