

FAAS WARS

Code your robot, learn serverless, have fun and win cash prize.

FaaS Wars is a global 3-month virtual programming competition organized by Nimbella and members of the Apache OpenWhisk Community. You write code to control a robot moving in a battlefield and fire lasers to battle another robot, built by other participants.

1. Create Your Robot
2. Handle Events
2. Send Commands
4. Save, Test and Debug

PRIZES

 **\$200 (Top faasfighter until January 30)**

 **\$400 (Top faasfighter until February 27)**

 **\$800 (Top faasfighter until March 27)**

How to Participate?

1. Log in to Nimbella from the Game
2. Read this Guide to learn how to build your fighter
3. Battle against other robots
4. Check the Leaderboard to review your score
5. Win a cash prize if you are the best fighter (cash prizes awarded monthly)
