Batch: 2012-2016 (ECE)

Professional journey of Ms. Muskan Khemka

Training and Placement Department, Dronacharya Group of Institutions, Greater Noida organized an online **"Alumni Connect Program 2024"** on **4th May 2024**. **Ms. Muskan Khemka** (Data Analyst and Network Engineer with expertise in Python, SQL, Azure, and satellite communications. Currently pursuing a Master's at the University of Surrey) alumnus 2012-16 batch was the keynote speaker of the program.

The session aimed at providing students with guidance on preparing for higher education and placements

Ms. Muskan Khemka highlighted the challenges and opportunities she encountered, offering valuable lessons for students aspiring to excel in their respective fields. Her narrative emphasized the importance of perseverance, continuous learning, and adaptability in achieving academic and career goals.

During the session, she delivered a motivational talk that focused on strategies for preparing effectively for higher studies and navigating the competitive placement process. The students actively participated, posing a variety of questions related to placements, career growth, and skill development. She addressed each query thoughtfully, offering practical advice and sharing her views on how to succeed in interviews and adapt to the evolving demands of the industry.

The session inspired the students and gave them practical ideas to confidently work toward their academic and career goals

Name of the Program: Insights into Entrepreneurship: Entrepreneurship Talk

Date: 6th May 2024

Resource Person Details: Mr. Kartik and **Mr. Jyotish**, the visionary founders of **Cosy Toys**

ED Cell, **Dronacharya Group of Institutions, Greater Noida** organized **"Entrepreneurship Talk"** for the students of MBA and B.Tech on **6th May, 2024**. The session boasted illustrious keynote speakers, **Mr. Kartik** and **Mr. Jyotish**, the visionary founders of **Cosy Toys**, who took center stage to impart their wisdom on the topic, **"Crafting Success: Empowering Minds through Practical Entrepreneurship Insights". Ms. Aarti Mohan,** MBA First year student anchored the event with finesse.

The event unfurled with the gracious welcome extended to the distinguished speakers by **Prof. (Dr.) Arpita Gupta (Director, DGI.)** A gesture of gratitude resonated through the presentation of saplings by **Director DGI and Prof. (Dr.) S.K. Srivastava (Registrar, DGI),** symbolizing the nurturing of entrepreneurial endeavors and the promise of growth.

In the course of their presentation**, Mr. Kartik** and **Mr. Jyotish** unfolded a treasure trove of invaluable insights gleaned from their arduous entrepreneurial journey. They delved into the intricacies of establishing and scaling a business in the cutthroat landscape of soft toy manufacturing and distribution, candidly addressing the hurdles encountered in the nascent stages and articulating the strategic maneuvers that propelled them forward.

A pinnacle moment of the session transpired with the revelation of their latest stress-relief product line, igniting fervor and curiosity among the attendees. The interactive demonstration by Cosy Toys team captivated both students and faculty members alike. The founders shared their personal narratives, recounted the inception of their venture devoid of substantial backing, yet brimming with determination to conquer challenges, a narrative that resonated deeply with the aspiring entrepreneurs in the audience.

The crescendo of the event was a harmonious conclusion, marked by a heartfelt vote of thanks delivered by **Prof. (Dr.) Ritu Soryan (HOD, MBA Dept.)**, expressing gratitude to all participants for their fervent engagement. Candid photographs immortalized the shared moments of enlightenment and inspiration, encapsulating the essence of the occasion.

The Entrepreneurship Talk catalyzed a ripple effect, stirring the entrepreneurial fervor within the academic community, furnishing actionable insights and a surge of motivation for future ventures in the realms of business and innovation

Name of the Program: Workshop on "Entrepreneurship and Innovation as Career Opportunity"

Date: 18th September 2023

Resource Person Details: Mr. Vivek Kumar Jhakmola, (Director, MTA Ev Division)

Institution's Innovation Council (IIC), Ministry of Education (MoE) Dronacharya Group of Institutions, Greater Noida organized a session on "**Entrepreneurship & Innovation as Career Opportunity**" for B.Tech & MBA students on **18th September, 2023**. The speaker of the session was **Mr. Vivek Kumar Jhakmola**, (Director, MTA Ev Division). 100 students attended the session.

The main objective of the session was to inform students about the career opportunities in Entrepreneurship and Innovation and encouraging them to make positive changes in society.

Mr. Vivek Kumar Jhakmola emphasized that in India's vast landscape, innovative projects and new startups are essential to boost employment and GDP growth. He provided a detailed explanation of entrepreneurship, the roles of an entrepreneur, and the challenges they face. He highlighted that earning profits in business is a challenging and lengthy process, using various examples for clarity. The session concluded with an interactive Q&A session to address students' queries.

Students at Dronacharya Group of Institutions, Greater Noida gained valuable insights from the session. Prof. (Dr.) Seema Shukla (Director) concluded with a vote of thanks.

Objective: The aim was to inform students about the potential career paths available in Entrepreneurship and Innovation.

Benefits: Students gained a comprehensive understanding of entrepreneurship, including the roles of an entrepreneur and the challenges they might face

Name of the Program: Workshop on Intellectual Property Rights (IPRs) and IP management for Start Up

Date: 18th April 2024

Resource Person Details: Prof. Sanghamitra V Arora (IIC Convenor)

Institution's Innovation Council (IIC), Ministry of Education (MoE), Dronacharya Group of Institutions, Greater Noida organized a **workshop** on **Intellectual Property Rights (IPRs) and IP management for Start Up** on **18th April, 2024**. The workshop was taken by **Prof. Sanghamitra V Arora (IIC Convenor)** for **B.Tech 2nd and 3rd year students**.

The workshop began with an introduction to different types of intellectual property rights. Distinctions between patents, trademarks, copyrights, and trade secrets were explained to the students. Prof. Arora explained how patents protect inventions, trademarks secure brand identity, copyrights cover original works of authorship, and trade secrets protect confidential business information. Emphasis was placed on the importance of understanding the rights to avoid infringement and to protect one's own creations.

Students were introduced to the concept of IP management, which involves identifying, protecting, and commercializing intellectual property. Prof. Arora discussed strategies for building a robust IP portfolio, including when to file for patents, how to maintain trade secrets, and the importance of conducting thorough IP audits. IP registration process was also explained to the students which included patent drafting, filing procedures and responding to patent office actions.

The workshop also featured case studies of engineering startups that effectively utilized their IP assets to gain a competitive advantage. The examples helped students understand the practical aspects of IP management, including challenges faced and strategies used to overcome them. Students also participated in practical exercises, group discussions, and Q&A sessions.

Objective: To equip students with IP knowledge crucial for protecting and managing startup innovations.

Benefits: Enhanced IP awareness, safeguard inventions, and foster startup success through strategic IP management.

Name of the Program: Session on "Essential Soft Skill for Engineers to maximize success in career"

Date: 13th October 2023

Resource Person Details: Captain Manjula Katoch (Ex. Army Officer and certified skill trainer)

To enhance the soft skills of the students, **Technical Language Society, Dronacharya Group of Institutions, Greater Noida** organized a **session** on **"Essential Soft Skill for Engineers to maximize success in career"**. Captain Manjula Katoch (Ex. Army Officer and certified skill trainer) was the speaker of the session. **B.Tech 3rd year students** attended the session.

Dr. Ritu Soryan (Dean, Students Welfare, DGI) welcomed Captain Manjula Katoch and presented her a sapling. Captain started the session with the explanation of importance of 'Soft Skills' to achieve height in career. She said, soft skills are indispensable for engineers to attain success in the modern workplace. Then, she explained certain soft skill traits crucial for engineers to succeed in their career. Effective communication is paramount in engineering. Engineers must convey complex technical ideas clearly to diverse audiences, including clients, colleagues, and stakeholders. Both written and verbal communication skills are essential for seamless collaboration and project success. Engineers encounter multifaceted challenges daily. The ability to think critically, analyze problems, and devise innovative solutions is fundamental. It involves assessing situations, breaking down complex issues, and applying logical reasoning to find viable resolutions. In various stages of their careers, engineers often assume leadership roles. Leadership skills involve inspiring others, making informed decisions, delegating responsibilities, and guiding teams to achieve objectives. For the attainment of appropriate output, engineers must have good communicative skills.

Afterwards, a hands on communication activity was performed with the students wherein students were asked to come on the dais and speak on certain technical topics. The speaker guided all about their way of communication and body language.

The session helped the students by honing soft skills and becoming well-rounded professionals capable of thriving in a rapidly changing environment. Lastly, vote of thanks was proposed by Dr. Ritu Soryan.

Name of the Program: Workshop on "From Basic to Advanced PHP"

Date: 23rd February 2024

Resource Person Details: Mr. Gurpreet Singh (Team Lead, Hellotia Private Limited)

DGI ACM Student Chapter organized a workshop on **"From Basic to Advanced PHP"** for the third-year students of the CSE/CSIT/IT/CSE(AIML) Department on **23rd February, 2024. Mr. Gurpreet Singh** (Team Lead, Hellotia Private Limited) was the expert for the workshop. The event was coordinated by **Ms. Papiya Mukherjee (CSE Dept.).**

The workshop aimed to empower students with hands-on experience and a basic to advanced understanding of PHP technology for developing their own websites.

Ms. Shruti Mishra, a CSE 3rd Year student, extended a warm welcome to Mr. Gurpreet and introduced the trainer's achievements and experiences, and she also shared her views on the importance of the workshop, emphasizing its role in bridging the gap between theoretical knowledge and practical application in the software industry. The session was mainly divided into three parts and the schedule was.

Mr. Gurpreet started the session with the introduction of PHP technology and its common constructs and elements. The session continued with an explanation of example codes and the building blocks of the user interfaces. Afterward, the session progressed with hands-on practice, and the trainer also interacted with the students and cleared their doubts and queries. Students were provided with the opportunity to engage with web codes. The first half-session aimed to familiarize participants with the basic concepts of PHP.

Next session was focussed on advanced knowledge of PHP. Students got an opportunity to face the real platform to implement websites using the VS-Code tool and the XAMPP server. The session started with making the connection between Code and the server and continued by practicing the sign-up page and sign-in page. Lastly, the trainer also explained the best practices for the students: they should not be the slaves of any AI tool like ChatGPT, and they can contribute to the technical world by writing on Stack Overflow.

At the end of the session, Ms. Vaishnavi, 3rd Year CSE student showed her gratitude by sharing her feedback and 'Thanks Note'. Prof. Bipin Pandey(HOD) and Prof. Papiya Mukherjee extended their regards by presenting a token of thanks to **Mr. Gurpreet Singh.**

The practical and insightful workshop provided students with hands-on experience and a profound understanding of PHP.

Date: 27th December 2023

Resource Person Details: Dr. Ritu Soryan (Dean, Student Welfare, DGI.)

Institution's Innovation Council (IIC), Ministry of Education (MoE), Dronacharya Group of Institutions, Greater Noida organized a profoundly insightful workshop on **"Entrepreneurship Skill, Attitude and Behavior"** The esteemed speaker of the workshop was Dr. Ritu Soryan (Dean, Student Welfare, DGI.) The workshop aimed to provide invaluable insights to **80 students** of **MBA** and **B.Tech CSIT** Department, casting light on the indispensable skills requisite for success in the entrepreneurial landscape.

The workshop unfolded as an engaging and enriching experience for the students. Dr. Ritu Soryan, drawing from her extensive expertise in the field of entrepreneurship, effortlessly captivated the audience with her profound knowledge and real-world examples.

The event kicked off with the welcome of Dr. Ritu Soryan by the students, who expressed their enthusiasm with a thunderous round of applause. Her session commenced with an overview of the significance of Entrepreneurship Skills, Attitude and Behavior in shaping a triumphant career. She underscored the pivotal role of mindset, resilience, and adaptability in navigating the challenges of the business world.

The workshop comprehensively covered various facets of entrepreneurship, encompassing risk-taking, innovation, and leadership. Dr. Soryan shared her personal experiences and case studies, providing practical insights that resonated profoundly with the aspiring entrepreneurs in the audience.

Throughout the two-hour duration, Dr. Soryan actively fostered participation and interaction with the students. The students not only relished the session but also enthusiastically engaged in the discussion by posing thoughtful questions after a video session on Entrepreneurship. Dr. Soryan's adeptness in connecting with the students and addressing their queries created a dynamic and interactive learning environment.

The workshop not only served as a platform for knowledge exchange but also instilled a heightened sense of inspiration and motivation among the students. Dr. Soryan underscored the importance of skills and the seamless amalgamation of behavior, making an individual not only adept at navigating the present scenario but also equipped with a positive mindset to achieve long-term goals and recognize hidden talents.

As the session drew to a close, the students expressed their gratitude to Dr. Ritu Soryan for her invaluable insights, and the IIC DGI team for orchestrating such a transformative workshop. The event undeniably helped the students in charting a path to success in the professional realm.

The Certificate Course on Artificial Intelligence was structured into two stages, each covering essential topics and practical applications. Topics Covered during the training were**:**

- Microsoft Azure AI Fundamentals: Get started with artificial intelligence
- Microsoft Azure AI Fundamentals: Explore visual tools for machine learning
- Microsoft Azure AI Fundamentals: Explore natural language processing
- Microsoft Azure AI Fundamentals: Explore conversational AI
- Microsoft Azure AI Fundamentals: Explore decision support
- Microsoft Azure AI Fundamentals: Explore knowledge mining
- Designing and Implementing a Microsoft Azure AI Solution
- Provision and manage Azure Cognitive Services
- Process and translate text with Azure Cognitive Services

On **7th August, 2023,** the program commenced with a warm welcome extended to **Mr. Sanjeet Kumar** by **Prof. (Dr.) Seema Shukla** (Director) and **Prof. (Dr.) S.K. Srivastava** (Registrar).

During the 18 days session **Mr. Sanjeet Kumar** delivered an insightful speech highlighting the significance of Artificial Intelligence in today's world, emphasizing its applications and impact on various industries.

The comprehensive curriculum, including Microsoft Azure AI fundamentals and real-world application through Azure Cognitive Services, ensured that participants gained a solid understanding of AI concepts and their practical implementation.

On **24th August, 2023 Ms. Richa Jaiswal, the Head of Training and Placement**, expressed her gratitude on behalf of the participants and the organizing team at the conclusion of the Training Program. The program not only equipped the participants with AI skills but also contributed to their personal and professional development. It is expected that the knowledge gained during the course will serve as a strong foundation for the participants in their future endeavors.

The program is a testament to Honeywell's commitment to youth empowerment and skill development. It has provided a platform for participants to enhance their capabilities in the field of Artificial Intelligence, which is crucial in today's technology-driven world. Honeywell's CSR efforts are making a positive impact on the youth, enabling them to be better prepared for the challenges and opportunities of the future.

Name of the Program: Session on Angel Investment/VC Funding Opportunities for Early Stage Entrepreneurs

Date: 15th July 2023

Resource Person Details: Prof. Richa Jaiswal

Institution's Innovation Cell (IIC), Ministry of Education (MoE), Dronacharya Group of Institutions, Greater Noida hosted an insightful and engaging event on **15th July, 2023**, titled "**Session on Angel Investment/VC Funding Opportunities for Early Stage Entrepreneurs.**" The event aimed to provide a comprehensive understanding of the crucial aspects of angel investment and venture capital funding, catering to early-stage entrepreneurs eager to take their startups to the next level.

An illuminating keynote address was delivered by **Prof. Richa Jaiswal.** She highlighted the significance of angel investment and venture capital funding in driving innovation and startup growth. She explained, VC Funding or venture capital funding is capital that you get from investment groups that work with startups and small businesses. These groups oversee the money of investors who want to invest in companies with strong growth potential in exchange for an equity share in the business. VC funding is one way for small businesses to get money to start or grow business. She also explained the strategies to be used for crafting compelling pitches, understanding investor expectations, building a sustainable business model, establishing valuable relations with the investors and best practices for securing funding.

The event received overwhelmingly positive feedback from attendees. Participants expressed their gratitude for the valuable insights shared by the speaker, the in-depth knowledge they received, and the clarity they gained about the investment landscape.

Ms. Soni Pathak Singh (Trainer) from Nextgen was the keynote speaker of the workshop.

The objective of the workshop was to guide students in creating a structured and actionable plan for successful transition from their academic journey to professional employment

The event commenced with a warm welcome by **Ms. Richa Jaiswal,** TPO of DGI, who introduced **Ms. Soni Pathak Singh** and presented her with a token of appreciation. Ms. Soni began the session by emphasizing the importance of setting clear career goals and aligning educational pursuits with professional aspirations.

Some of the topics explained by **Ms. Soni** included identifying strengths and interests, exploring career options, building a professional network, and acquiring the skills necessary for employment in a competitive job market. Ms. Soni highlighted the role of internships, certifications, and extracurricular activities in enhancing employability.

The workshop incorporated interactive activities and group discussions, allowing students to map out their career action plans and receive personalized guidance. Ms. Soni also shared real-world examples and success stories to inspire students and motivate them to take proactive steps toward their career goals.

The workshop motivated students to take charge of their career paths with a clear understanding of the steps required to achieve their ambitions.

Flayer of the session

Name of the Program: Session on "Personality Development Program"

Date: 8th May 2023

Resource Person Details: Captain Manjula Katoch (Ex. Army Officer and certified skill trainer)

Dronacharya Group of Institutions, Greater Noida organized a **"Personality Development Program"** on **8th May, 2023**. **Captain Manjula Katoch** was the Soft Skills Trainer during the training program. **60 students** of B. Tech 1st Year attended the training program.

The aim of session was to enhance the personal and professional growth of the students.

The day began with a session on self-discovery and self-awareness. Participants were engaged in interactive exercises and discussions, gaining insights into their strengths, weaknesses, values and beliefs. The session helped the students understand the importance of self-awareness in personal growth. Afterwards a small exercise related to public speaking was also conducted. Students learned techniques to improve their verbal and non-verbal communication and they had the opportunity to practice public speaking in a supportive environment. This helped the students in boosting their confidence levels.

The session empowered students to take charge of their future endeavors with confidence. Lastly, Ms. Richa Jaiswal (Head, T&P Department, DGI) proposed vote of thanks to the trainer.

Name of the Program My Success Story: Motivational Session by Successful Innovator

Date: 31st October 2022

Resource Person Details: Mr. Jitendra Pareek (Founder, Eco Vision Pvt. Ltd.)

Institutions Innovation Council (IIC), Ministry of Education (MoE), Dronacharya Group of Institutions, Greater Noida, organized **My Success Story: Motivational Session by Successful Innovator** on **31st October, 2022**. The speaker of the session was **Mr. Jitendra Pareek (Founder, Eco Vision Pvt. Ltd.).** 42 students witnessed the journey of Mr. Jitendra Pareek.

The session started by a welcome speech by **Prof. (Dr.) BMK Prasad (Director-DGI).** After introduction of the speaker, he asked **Mr. Jitendra Pareek** to take charge of the dais and motivate the budding technocrats of the college by sharing some important piece of his life experiences with the students.

The speaker started the session by introducing **Eco Vision Pvt. Ltd**. **Eco Vision Industries began its operations in October 2008.** This company manufactures products for the national as well as SAARC countries. ECO VISION is one of the largest companies, operating in Surajpur, Greater Noida

He shared his whole journey of converting his dreams into reality. He told students all the ups and downs he faced after introducing the product in the market. He throwed light upon the marketing strategies such as creation of customer base, selection of target audience and also told about 4Ps of market. He also advised the students about importance of pitches for raising funds and also told about importance of managing funds. He then advised the students about following perfect pricing strategy for the product and keeping the product pocket- friendly. He concluded the session by motivating students to become innovators and choose to become entrepreneur.

In the end, students asked their doubts related to entrepreneurship and startups. The session was very motivating and helpful for all students.

Name of the Program: Session on Becoming a World Class Innovator - Growth through Innovation

Date: 2nd November 2022

Resource Person Details: Dr. Rajeev Kumar Mehajan (Scientist "C" and Advisor (Ministry of Science & Technology)

ED Cell and Institution's Innovation Council (IIC), Ministry of Education (MoE) Dronacharya Group of Institutions, Greater Noida organized a session on "**Becoming a World Class Innovator – Growth through Innovation**" for B.Tech & MBA students on **2nd November, 2022**. The keynote speaker of the session was **Dr. Rajeev Kumar Mehajan** (Scientist "C" and Advisor (Ministry of Science & Technology). 250 students attended the session.

The main motive of the session was to make the students aware about the need for innovation in the country and the way through which a country can flourish by carrying innovation activities at large.

Mr. Rajeev Kumar Mehajan explained and laid stress upon the need for innovation by the young, budding & talented students. He motivated all the students to take up research work and to expand the horizons of critical thinking.

Students of Dronacharya Group of Institutions enthusiastically listened throughout the session. **Students were highly benefitted from the session.** In the last, **Mr. Mehajan** invited queries from the students & solutions were provided. Students actively listened throughout the session.

List of Activities Conducted: 2021-22

Name of the Program: Session on Operating System Under The Banner Preparing Students For ISRO Recruitment
Date: 1st July 2021
Resource Person Details: Prof. Naveen Rathi

CSI Student Chapter, Dronacharya Group of Institutions, Greater Noida under the banner preparing students for ISRO Recruitment organized session on **Operating System** on **1st July 2021. Prof. Naveen Rathi** guided the students on the topic.

The objective of the session was to prepare the students for the ISRO Recruitment.

The Indian Space Research Organization (ISRO) is the space agency of the Government of India and is the one of the prestigious organizations for the engineers to work in. Every year ISRO conducts the recruitment drive for the post of scientists. Students from ECE, ME, EEE, CSE and CSIT Department are eligible for the recruitment.

Prof. Naveen Rathi started the session with discussion on basics of the Operating System. Moving further he explained students some of the important topics like CPU Scheduling Algorithms, Semaphores, Paging and Page replacement algorithms.

After the theory session he had also given students some objective questions related to the topics for practice and to let students know what kind of questions they can expect in the recruitment examinations.

Overall it was a knowledgeable session for the students.

Name of the Program: Session on DBMS Under The Banner Preparing Students For ISRO Recruitment
Date: 2nd July 2021
Resource Person Details: Prof. Naveen Rathi

CSI Student Chapter, Dronacharya Group of Institutions, Greater Noida under the banner preparing students for ISRO Recruitment organized session on **Digital Logic** on **5th July 2021. Prof. Naveen Rathi** was the mentor of the session.

The objective of the session was to guide students tricks and techniques to prepare for the ISRO recruitment.

The Indian Space Research Organization (ISRO) is the space agency of the Government of India and is the dream of every engineer to grab the job opportunity in the organization. Every year ISRO conducts the recruitment drive for the post of scientists.Students from ECE, ME, EEE, CSE and CSIT Department are eligible for the recruitment.

Prof. Naveen started the session with the basics of DBMS. He explained topics ER model, Integrity constraints, normal forms, File organization, indexing Relational model, Transactions and concurrency control. Moving the session further he also told students to prepare for the topics based on their weightage in the question papers. He suggested students to solve as many previous year question papers as possible to understand the type of questions asked in the examinations.

Overall it was an informative session for the students.

Name of the Program: Session on Computer Network Under The Banner Preparing Students For ISRO Recruitment
Date: 3rd July 2021
Resource Person Details: Prof. Hansraj Yadav

CSI Student Chapter, Dronacharya Group of Institutions, Greater Noida under the banner preparing students for ISRO Recruitment organized session on **Computer Network** on **3rd July 2021. Prof. Hansraj Yadav** mentored the students on the topic for recruitment process.

The objective of the session was to guide students for preparation of ISRO recruitment.

Indian Space Research Organization (ISRO) is the space agency of the Government of India. ISRO is engaged in Research and Development activities in development of Space Application, Space Science and Technology for the benefit of society at large and for serving the nation by achieving self-reliance and developing capacity to design and build Launch Vehicles and Communication/Remote Sensing Satellites and thereafter launch them.

Every year ISRO recruits ECE, ME, EEE, CSIT and CSE Department students for the post of scientist.

Prof. Hansraj guided the students fundamental concepts of Computer Networks in a simple and easy manner starting from Concept of layering, LAN technologies, Flow and error control techniques, Application layer protocols (DNS, SMTP, FTP, HTTP, POP), Switching, IPv4/IPv6, Routers and routing algorithms and sockets, congestion control, and Basics of Wi-Fi, Network security. He also gave some practice questions to the students for the better understanding of the way how question will be asked in the examinations.

Overall it was a knowledgeable session for the students.

Resource Person Details: Prof. Bipin Pandey (HOD CSE Department)

Dronacharya Group of Institutions, Greater Noida organized Part II of the workshop on "Web Development" for first-year students on 22nd January 2022. The workshop was conducted under the guidance of Prof. Bipin Pandey, Head of the CSE Department. Building upon the concepts introduced in the first session, this workshop focused on advanced web development topics such as responsive design, client-server architecture, and introduction to front-end frameworks. Prof. Pandey demonstrated real-time coding examples and explained how to integrate different web technologies to build interactive and user-friendly websites.

The workshop provided students with hands-on experience, allowing them to apply their theoretical knowledge to practical projects. Prof. Pandey encouraged students to work on mini-projects and guided them on best practices in web development. The session also covered important aspects of debugging and optimizing web pages. Students actively participated, asked questions, and showed great enthusiasm throughout the session. The workshop concluded with a brief overview of career opportunities in web development, inspiring students to continue exploring this dynamic and in-demand field.

Name of the Program: Short Term Course on JAVA (Placement Preparation Session)
Date: 24th - 28th January 2022
Resource Person Details: Prof. Bipin Pandey (HOD CSE Department)

Dronacharya Group of Institutions, Greater Noida, organized a Short Term Course on "JAVA" from 24th to 28th January 2022 as part of its Placement Preparation Session initiative. The course was mentored by Prof. Bipin Pandey, Head of the CSE Department, and aimed at strengthening the core programming skills of students to enhance their placement readiness. During the five-day course, students were introduced to essential Java concepts such as object-oriented programming, classes and objects, inheritance, polymorphism, exception handling, and file I/O operations. Prof. Pandey delivered the sessions in an easy-to-understand manner, making it accessible for students from varying programming backgrounds.

The course also emphasized the application of Java in solving real-world problems and preparing for technical interviews. Through live coding sessions and problem-solving exercises, students gained practical experience and improved their logical thinking and coding efficiency. Special focus was given to frequently asked interview questions and coding challenges that appear in placement tests. The interactive nature of the course and the clear, concept-driven approach of Prof. Pandey made it a valuable learning experience for all participants. The session concluded with a mock test to assess student learning and readiness for campus placements.

Name of the Program: Placement Preparation Session on Quantitative Aptitude
Date: 31st January - 4th February 2022
Resource Person Details: Prof. Yashvardhan Soni (CSE Department)

Dronacharya Group of Institutions, Greater Noida organized a Placement Preparation Session on "Quantitative Aptitude" from 31st January to 4th February 2022 for VI semester students. The session was conducted by Prof. Yashvardhan Soni from the CSE Department. The primary objective of this session was to prepare students for the quantitative section of various placement tests conducted by reputed companies. Prof. Soni covered important topics such as number systems, percentages, profit and loss, time and work, time-speed-distance, permutations and combinations, and data interpretation. The concepts were explained through real-time examples and shortcut techniques to improve problem-solving speed and accuracy.

The session was highly interactive, with students actively participating in quizzes and practice problems. Prof. Soni emphasized time management strategies and tips to handle tricky questions during aptitude tests. The focus remained on building a strong conceptual base and enhancing analytical thinking, which are crucial for campus placements. Students found the session extremely helpful and expressed increased confidence in tackling aptitude-related questions. The five-day workshop successfully contributed to improving students' preparedness for upcoming recruitment processes.

Name of the Program: Alumni Connect Program on Placement Talk
Date: 3rd September 2021
Resource Person Details: Ms. Prerna Setia, **working at Capgemini UK PLC (London United Kingdom as Associate Consultant**

Dronacharya Group of Instituions, Greater Noida organized a **"Alumni Connect Program"** on **3rd September 2021** for V & VII semester students of ECE Department students.

Ms. Prerna Setia, presently working at Capgemini UK PLC (Incorporate in England & Wales) London United Kingdom as Associate Consultant interacted online with the students.

Initially **Ms. Prerna** gave her introduction to the students and shared her experience during the college days. She focused on importance of time and its management. She told etiquettes matter a lot, whenver anyone go for an interview.

Next, she discussed some important topics like qualitative aptitude, reasoning and verbal section for clearing the written interview. **Ms. Prena** also told the students to focus on the attitude, communication skills during the interview.

Moving the session further, **Ms. Setia** gave some on various aspects of Facing Interviews & Group Discussions, Professional Resume Writing, Cracking Aptitude Exams, Skill Development etc. She also emphasized on gaining more practical knowledge rather than theoretical.

Later **Ms. Prerna** discussed leadership skills. She told leadership is the ability to develop a vision that motivates others to move with a passion towards common goal. Every leader and member of a group is responsible for creating and maintaining positive group dynamics through communication techniques. When trust and cooperation exist in a group, individuals, committees, organizations, and communities can greatly benefit

Name of the Program: "Motivational Session by Entrepreneur / Start-Up Founder"
Date: 25th September 2021
Resource Person Details: Mr. Ankit Pradhan (Founder of Keasis Technology Pvt. Ltd.)

Institution's Innovation Council (IIC), Ministry of Education (MoE), **Dronacharya Group of Institutions, Greater Noida** organized a "Motivational Session by Entrepreneur / Start-Up Founder" on **25th September, 2021** to encourage students towards entrepreneurship. 150 students along with 3 faculty members took part in the workshop. **Mr. Ankit Pradhan (Founder of Keasis Technology Pvt. Ltd.)** exemplify his story of success.

He initiated by saying, engineering has and always will shift its focus between applied and theoretical, hands-on and analytical to meet the needs of the day. Though the basic underpinnings of engineering education remain familiar, the environment and context within which engineers will need to practice reflects challenges and opportunities that are unique today.

He mentioned, an entrepreneur is someone that would never call himself an entrepreneur. He is someone that is happy to work, while all others are out partying. He is addicted to success and finally the entrepreneur knows one simple fact: "I will make it, maybe not immediately but absolutely and definitely". You have to hustle and think outside the box to make things happen when you are beaten down relentlessly.

He concluded by saying failure is simply learning. When it comes to success hard work always comes into play. There is no greater contentment in life than that of hard work paying off and knowing you are self- made.

Name of the Program: Online Session on "Plan and Prepare Your Career"
Date: 21st October 2021
Resource Person Details: Ms. Puneet Kaur Arora (AGM, Precision Electronics)

Institution's Innovation Council (MoE), **Dronacharya Group of Institutions, Greater Noida** organized an online session on **"Plan and Prepare Your Career"** on **21st October, 2021** for first year students. 250 students attended the workshop. **Ms. Puneet Kaur Arora (AGM, Precision Electronics)** was the speaker of the workshop.

She began the workshop with a question "Are you an engineering student thinking about how to be a successful engineer and build an enriching career?"

She explained students various factors that they need to take to keep their career path ahead of the curve in the future.

She said, career in engineering are getting more complex day by day, and it is necessary for engineers to have the certification to get their career to the next level. For instance, certification in Java script, Python, Data Structure can benefit students of computer science. In the same way short certification courses on robotics, mechatronics, piping design, nanotechnology can benefit mechanical engineering students. The short certification courses also help students to have better chance of getting placed during campus placements.

Then moving towards real time experience in the field of engineering she explained students, importance of internship. An internship provides the work experience that helps students to get practical exposure of the concepts that they gained in classroom. Internship also develops leadership skills and allows students to gain a competitive edge.

Additionally she told students importance of research engineering i.e. paper writing, paper presentation, paper publishing. Research papers are a good way to foster yourself and improve your resume. Moreover she asked students to participate in national and international conferences, engineering competitions and told that these competitions will add to their knowledge and will show up with a good value on your resume. She also described the importance of soft skills such as communication, teamwork, and leadership.

In the end, **Ms. Puneet Kaur** cleared the doubts of the students.

Name of the Program: Online Session on Career Path for Core Companies
Date: 22nd October 2021
Resource Person Details: Mr Dinesh Jee Associate Vice President, Kirloskar (Oil Engines Limited)

Institution's Innovation Council (MoE), **Dronacharya Group of Institutions, Greater Noida** conducted an online session on **"Career Path for Core Companies"** on **22th October, 2021**. **156 students from ECE, ME, EEE Department attended the workshop. Mr Dinesh Jee Associate Vice President, Kirloskar (Oil Engines Limited)** was the speaker of the workshop.

He started the session with the fact that till now, the IT industry has absorbed engineers from branches other than CSE and IT also with open arms. However, this will be a challenge in the future. In this situation, the typical mind-set of an engineer is to aim for a core engineering job. But again, such jobs are always limited because they are linked to the industry and functional area.

He mentioned that best way to get into Core-companies is through Campus recruitment. Unlike IT companies that conduct a lot of Off-campus recruitment, core companies don't conduct many off-campus recruitments. One has to either do an internship or project and get an offer, OR, get in through Campus recruitment.

He also told students, they can grab govt. jobs in core companies by qualifying various competitive examinations.

In the end, students cleared their doubts like work environment in core companies, future career growth in core companies and many more. It was very interactive session.

Name of the Program: Guest Lecture on How to Plan and Prepare for campus placement
Date: 20th November 2021
Resource Person Details: Mr. Sandeep Kumar **(Windows Administrator, Capgemini India Pvt. Ltd. in cloud infrastructure services)**

Institution's Innovation Council (MoE), Dronacharya Group of Institutions, Greater Noida conducted a **"Guest Lecture on How to Plan and Prepare for Campus Placement"** on **20th November, 2021.** 156 students of final attended the lecture. **Mr. Sandeep Kumar** (Windows Administrator, Capgemini India Pvt. Ltd. in cloud infrastructure services) was the speaker of the session.

Mr. Sandeep initiated by saying that preparing for campus placement is the initial step in preparing for a professional life ahead. Campus placement paves a path for a better professional career ahead, hence campus placement preparation holds significance yet many students do not take campus placement preparations too seriously. However, for most this proves to be a big mistake.

He suggested students the ways to prepare for campus placement. They are as follows:

- He said students to have clear idea of the subjects that they have studied for last 2-3 years. He suggested students to revise the basic concept of the subjects before the campus placement.
- Prepare for the aptitude thoroughly and practice previous placement paper.
- He said, sometimes students don't pay attention towards communication skill. This can be the point of rejection in any interview. So work on your communication skill also.
- He told students to prepare for HR interview questions.

In the end he gave some useful tips to follow in the interview process:

- Do not be late for your interview round.
- Make a good resume to present yourself briefly
- Research about the company and your interviewers.
- Do try to not mumble/bluff through your interview.

In the end, participant interacted with the speaker and cleared their doubts.

Name of the Program: Motivational Session By Successful Innovator
Date: 27th November 2021
Resource Person Details: Utkarsh Singhal (Project shortlisted for patent filing by AKTU)

Institution's Innovation Council (IIC), Ministry of Education (MoE) **Dronacharya Group of Institutions, Greater Noida** organized a **"Motivational Session by Successful Innovator"** on **27th November, 2021** to make student aware about IPR. 80 students and faculty attended session. Utkarsh Singhal (Project shortlisted for patent filing by AKTU) demonstrated his story of success in order to make students hope big and achieve big.

In his speech, **Utkarsh Singhal** said the bridge between the theoretical aspects and real world is project based learning. And this lack of application of knowledge in the real world throughout the course of study is what hinders us from truly appreciating the things that we study.

He mentioned that projects help us in understanding the subject better. Projects encourage us to dig deeper & help us learn new things. Projects make learning more learners driven than teacher driven. Projects help us become better learners and better engineers.

In his inspiring speech Utkarsh said that it is very likely that the projects don't give the expected results the first time. This is where we learn another skill from projects - debugging. He also spoke about balancing between smart work and hard work. He literally inspired the budding technocrats.

In the end he concluded that one should always explore new possibilities. You should design, create and build – be a real engineer.

The session ended with a note of inspiration, knowledge and understanding.

Name of the Program: Guest Lecture on Tips and Tricks to Prepare for Campus Placement
Date: 13th November 2021
Resource Person Details: Mr. Pankaj Mahendiratta working with CRISIL Mumbai (Senior Equity Research Analyst)

Dronacharya Group of Institutions, Greater Noida organized a guest lecture on "Tips and Tricks to Prepare for Campus Placement" on 13th November 2021 for students of V and VII semesters. The session was conducted online and featured Mr. Pankaj Mahendiratta, a Senior Equity Research Analyst currently working with CRISIL, Mumbai, as the guest speaker. Mr. Mahendiratta shared his valuable insights and experiences from the corporate world, offering practical advice to help students navigate the campus placement process effectively. He discussed the importance of understanding company profiles, researching job roles, and customizing resumes to match specific job descriptions.

The session also focused on the key skills recruiters look for, including problem-solving abilities, communication skills, and domain knowledge. Mr. Mahendiratta provided several useful tips for cracking aptitude tests and personal interviews, stressing the need for consistent practice and confidence. He encouraged students to participate in mock interviews and group discussions to build their interpersonal skills. The lecture concluded with an engaging Q&A session, where students had the opportunity to clarify their doubts and seek guidance. The session was highly informative and motivational, equipping students with a clearer understanding of how to approach the placement process strategically.

Name of the Program: Seminar on "How to Plan for Startup & Legal and Ethic Steps"
Date: 27th May 2022
Resource Person Details: Ms. Priyanka Madnani **(Founder & CEO, Easy to Pitch)**

Institution's Innovation Council (IIC), Ministry of Education (MoE), Dronacharya Group of Institutions, Greater Noida organized an online seminar on **"How to Plan for Startup & Legal and Ethic Steps"** on **27th May 2022. Ms. Priyanka Madnani** (Founder & CEO, Easy to Pitch) was the guest speaker of the seminar.

The seminar was growth-focused, practical, and empowering. It lay out and demystifies the most effective path to Startup success.

Ms. Priyanka Madnani explained step-by-step how to get from concept to launch. It helped students to understand what legal form their business should take, and how to establish the company. Seminar showed them how to avoid the common pitfalls of team selection and investor relationships, and explains the different ways of funding their business. It reveals powerful ways of exploiting free or low-cost tools and platforms for growth hacking, marketing and sales. And it provides them, step by step, the methodologies and ground rules for success in rapidly monetizing their business. Students left session equipped with a set of tools, hacks, strategies and tactics, inspiring examples, and guidelines for defining, creating and growth hacking their new business.

In the end students asked their doubts related to startup and entrepreneurship. It was very knowledgeable session.

Name of the Program: Session on How to Ace Behavioural/HR Interview Rounds
Date: 11th March 2022
Resource Person Details: Mr. KTK Mohan**,** Lead Trainer at PrepInsta

Training & Placement Department of Dronacharya Group of Institutions, Greater Noida, in collaboration with the Prepinsta organized a session titled "How to Ace Behavioural/HR Interview Rounds?" on **11th March 2022.** The event was attended by 75 students from various departments. The keynote speaker, **Mr. KTK Mohan,** Lead Trainer at PrepInsta,

The event began with a heartfelt welcome by Ms. Richa Jaiswal, the Training and Placement Officer (TPO) of DGI. She introduced the guest speaker, Mr. KTK Mohan, and honoured him with a token of appreciation. Mr. KTK Mohan then commenced the session by highlighting the significance of setting clear career goals and aligning one's education with their professional aspirations.

He shared valuable insights and strategies for excelling in Behavioural and HR interview rounds. He emphasized the importance of thorough preparation and effectively showcasing one's skills and experiences. Mr. KTK Mohan highlighted the need to research the company's culture, values, and job requirements and encouraged tailoring responses to align with these aspects. He also stressed the importance of practicing concise explanations of resume content.

Mr. Mohan elaborated on understanding behavioural questions, which are designed to predict future actions based on past behaviour. He recommended using the STAR method (Situation, Task, Action, and Result) to structure responses and advised students to practice through mock interviews or by using question banks.

In addition, he underscored the significance of professional attire and confident body language during interviews. The session concluded with Mr. Mohan addressing students' queries, leaving them well-informed and motivated.

Dronacharya Group of Institutions, Greater Noida, in collaboration with NextGen, organized an engaging workshop on "Resume Building and Job Applications" on 15th April 2022. 84 students attended the workshop. Ms. Parul Singh, an expert trainer from NextGen, was the spokesperson.

The event commenced with a warm welcome from Ms. Richa Jaiswal, the Training and Placement Officer (TPO) of DGI. She introduced the guest speaker, Ms. Parul Singh, and presented her with a token of appreciation. Ms. Parul began the session by emphasizing the importance of defining clear career goals with professional objectives.

The session aimed to equip students with essential skills to excel in the competitive job market.

The workshop focused on key aspects of creating a professional resume, emphasizing clarity, structure, and effectively showcasing achievements. Ms. Parul Singh shared valuable insights on tailoring resumes for specific job roles and aligning skills and accomplishments with employer expectations. Additionally, the session covered strategies for writing persuasive cover letters to leave a strong first impression on potential employers.

Interactive elements, including resume reviews, practical exercises, and mock application writing sessions, provided participants with hands-on experience. Students praised the workshop for its practical relevance and expressed confidence in applying the techniques to secure internships and job opportunities. Dronacharya Group of Institutions remains committed to fostering growth and learning, empowering students with the tools to succeed in their professional endeavors.

Name of the Program: Workshop on "Importance of Goal Setting for Emerging Young Entrepreneurs"
Date: 25th - 26th November 2021
Resource Person Details: Capt. Manjula Katoch

The Institution's Innovation Council (IIC), Ministry of Education (MoE), and the Entrepreneurship Development Cell of Dronacharya Group of Institutions, Greater Noida, organized a workshop titled **"Importance of Goal Setting for Emerging Young Entrepreneurs"** from **25th- 26th November 2021,** for 62 students. The keynote speaker for the workshop was **Capt. Manjula Katoch,** whose insights greatly inspired the attendees.

The workshop began with a warm welcome by Dr. Ritu Soryan, Innovation Ambassador, who introduced Capt. Manjula Katoch and presented her with a sapling as a token of appreciation.

Capt. Manjula opened the session by elaborating on the concept of entrepreneurship and its critical role in driving the nation's economic growth. She shared inspiring examples of successful entrepreneurs in India and highlighted various government funding initiatives designed to support startups. She encouraged students to seize the right opportunities if they aspired to pursue entrepreneurial ventures.

During her session, Capt. Manjula discussed the essential skills and qualities required for entrepreneurial success, with a particular focus on the importance of goal setting. She emphasized that clear and well-defined goals provide direction, facilitate progress tracking, and sustain motivation. She advised students to translate their goals into creative and visual representations for better clarity and focus. Stressing the significance of goal setting, she explained that those who set goals are more likely to achieve their desired outcomes. The session concluded with an engaging Q&A round, where Capt. Manjula addressed students' queries. The participants appreciated the session, providing positive feedback on its relevance and impact.

Name of the Program: Session on C+ DS+ ALGO Under The Banner Preparing Students For ISRO Recruitment
Date: 29th June 2021
Resource Person Details: Prof. Yashwardhan Soni

CSI Student Chapter, Dronacharya Group of Institutions, Greater Noida under the banner preparing students for ISRO Recruitment organized session on **C+ DS+ ALGO** on **29th June 2021. Prof. Yashwardhan Soni** was the mentor of the session.

The objective of the session was to guide how to prepare for the ISRO recruitment.

Indian Space Research Organization (ISRO) is the space agency of the Government of India. ISRO is engaged in Research and Development activities in development of Space Application, Space Science and Technology for the benefit of society at large and for serving the nation by achieving self-reliance and developing capacity to design and build Launch Vehicles and Communication/Remote Sensing Satellites and thereafter launch them. Every year ISRO recruits ECE, ME, EEE and CSE Department students for the post of scientist.

Prof. Soni started the session with the explanation of basics of the C Programing. Next he explained some of the important related topics - Recursion. Arrays, stacks, queues, linked lists, trees, binary search trees, binary heaps, graphs. Moving the session further he explained to the students' basics of Algorithms and topics to prepare in algorithms according to the pattern asked in the examination. He also told students to prepare for the topics based on their weightage in the question papers. He suggested students to solve as many previous year question papers as possible to understand the type of questions asked in the examinations.Overall it was an informative session for the students.

Resource Person Details: Shakti Saurav

Dronacharya Group of Institutions, Greater Noida organized an insightful webinar on "Entrepreneurship: Finding Your Growth and Opportunities in Current Trends" on 24th May 2021. The session was uniquely conducted by Shakti Saurav, a final-year student of the institution, showcasing the entrepreneurial spirit among students themselves. Shakti shared his journey, challenges, and experiences in the startup ecosystem, inspiring fellow students to explore the path of entrepreneurship. He emphasized the importance of identifying market needs, staying updated with industry trends, and taking calculated risks while turning ideas into viable business ventures.

During the session, Shakti discussed various contemporary opportunities emerging in sectors like technology, e-commerce, digital marketing, and sustainability. He also highlighted the importance of building a strong network, continuous learning, and leveraging digital platforms to grow a business. His practical insights and relatable experiences resonated with the audience, making the session highly engaging and motivational. The webinar concluded with an interactive Q&A session, where students expressed their interest in entrepreneurship and sought guidance on how to begin their own ventures. The event successfully encouraged a culture of innovation and self-driven growth among the students.

SAE INDIA Collegiate Club, Dronacharya Group of Institutions, Greater Noida organized an online skill development program on "Solidworks" from 2nd to 11th June 2021. The program aimed to enhance students' proficiency in using Solidworks, a leading 3D CAD design software widely used in engineering and product design. Prof. Manish Kumar, an expert in the field, was the eminent speaker of the session. He introduced the participants to the basic and advanced features of Solidworks, guiding them through its tools for creating 3D models, assemblies, and technical drawings. Prof. Kumar emphasized the importance of hands-on experience and encouraged students to apply their learning to real-world engineering projects.

Throughout the program, students gained valuable knowledge in computer-aided design (CAD), which is crucial for fields like mechanical, civil, and automotive engineering. The sessions were highly interactive, with live demonstrations and step-by-step tutorials on creating and modifying designs. Prof. Kumar also shared industry insights on how proficiency in Solidworks can enhance employability and open doors to various career opportunities. By the end of the program, students had a comprehensive understanding of the software's features and were equipped with the skills necessary to create professional-grade 3D models. The program proved to be a significant learning opportunity for students to build their technical expertise in CAD tools.

Date: 12th February 2020
Resource Person Details: Mr. Vinod Singh Sisodia, **Project Assistant, CIDC** (Construction Industry Development Council)

ASCE student Chapter, Dronacharya Group of Institutions, Greater Noida organized a guest lecture on **"Career perspective in Construction Industry"** on **12th February 2020**. **Mr. Vinod Singh Sisodia**, Project Assistant, CIDC (**Construction Industry Development Council**) was the guest speaker for the lecture. Students of Civil Department along with faculty members attended the lecture.

The event started with the welcome speech by **Prof. Dr. Ashish Soti** followed by the introduction of the guest speaker Mr. Sisodia.

Mr. Sisodia started with the brief introduction to the Construction Industry Development Programme. The Planning Commission, Government of India, jointly with the Indian construction industry has set up Construction Industry Development Council (CIDC) to take up activities for the development of the Indian construction industry.

Mr. Sisodia described the students the potential of the construction industry and how they can groom themselves to make their future bright. Speaker Mr. Sisodiya told students on-going opportunities and future projects in Indian construction Industry. Mr. Sisodiya also motivated the students to go for frequent site visits to have deep knowledge of practical work. He gave students the idea of ground situations that can arise during working on site. He also discussed various activities they can perform to improve the quality.

Next, he told the association of CIDC with various engineering societies like ACI, Engineering Council of India.

In the end there was question answer session between Mr. Sisodia and students.

The lecture concluded with presenting a token of thanks to the speaker Mr. Sisodia by Dr. Soti.

Date: 18th October 2019
Resource Person Details: Mr. Ankit Kumar

Dronacharya Group of Institutions, Greater Noida organized a workshop on "Professional Etiquette and Workplace Readiness" under the NextGen series on 18th October 2019. The workshop was designed to help students understand the essential skills required to thrive in professional environments. Mr. Ankit Kumar, the speaker for the session, shared his expertise on the importance of professional etiquette, which includes effective communication, dressing appropriately, time management, and building a positive work ethic. He discussed how these skills can significantly impact career growth and help students transition smoothly from academic life to the professional world.

Throughout the session, Mr. Kumar provided practical tips on workplace readiness, such as how to interact with colleagues, deal with workplace challenges, and maintain a professional demeanor in all situations. He emphasized the significance of soft skills like teamwork, problem-solving, and adaptability, which are crucial for success in any organization. The workshop also featured interactive activities where students had the opportunity to practice communication and networking skills. By the end of the session, students gained valuable insights into how to prepare themselves for the demands of the corporate world and enhance their overall professional presence.

Name of the Program: "Breaking Down Syllabus: How to Strategize for Any Competitive Exam"
Date: 30th December 2019
Resource Person Details: Mr. Kaustubh Shukla

Dronacharya Group of Institutions, Greater Noida organized a session titled "Breaking Down Syllabus: How to Strategize for Any Competitive Exam" on 30th December 2019. The session aimed at helping students understand how to efficiently approach competitive exams by breaking down their syllabi and planning their study strategies. Mr. Kaustubh Shukla, the expert speaker for the session, shared his insights on how students can optimize their preparation by understanding the structure of exams, identifying key topics, and prioritizing their study efforts. He emphasized the importance of setting clear goals, creating a study timetable, and following a systematic approach to tackle each section of the syllabus effectively.

Mr. Shukla further discussed techniques like time management, revision strategies, and practicing mock tests to build confidence and improve performance. He advised students to focus on quality study rather than quantity and to continuously assess their progress. The session also highlighted the significance of self-discipline and maintaining a balanced routine to avoid burnout. Students actively participated in the discussion, asking questions related to exam preparation and strategies. By the end of the session, they were equipped with practical tools and a clear approach to prepare for competitive exams, enabling them to manage their time better and boost their chances of success.

Name of the Program: Time Management Tips for Exam Preparation
Date: 10th January 2020
Resource Person Details: Prof. Sanghamitra V Arora

Dronacharya Group of Institutions, Greater Noida organized a session on "Time Management Tips for Exam Preparation" on 10th January 2020 to help students manage their study schedules effectively. Prof. Sanghamitra V Arora, the keynote speaker, shared valuable insights on how to utilize time efficiently during exam preparation. She highlighted the significance of creating a structured timetable, setting realistic goals, and prioritizing tasks based on their importance and deadlines. Prof. Arora discussed how breaking down large tasks into smaller, manageable segments can reduce stress and make the preparation process more organized and focused.

In addition, Prof. Arora stressed the importance of incorporating regular breaks, maintaining a healthy lifestyle, and avoiding last-minute cramming, which can negatively impact retention and performance. She introduced various time management techniques, such as the Pomodoro Technique and the Eisenhower Matrix, to help students stay productive while ensuring mental well-being. The session was interactive, and students were encouraged to ask questions and share their challenges related to time management during exams. By the end of the session, students had gained practical strategies that would help them improve their productivity, manage stress, and prepare more effectively for their exams.
