#### Workshop on Combating Fraud Activities using Data Science 11th January 2020

To study the impact of fraudulent activities in Social Science, Journalism, Product Reviews, Forged Imagery, Cybercrime, and Finance, a workshop on "Combating Fraud Activities using Data Science" was organized by Laboratory for Computational Social Systems (LCS2) at IIIT Delhi on 11th January 2020. Mrs. Neelam Bhardwaj, Assistant Professor, Dronacharya Group of Institutions, Greater Noida attended the workshop.

The workshop started with the lighting of lamp by **Mr. Ranjan Bose** (Director IIIT Delhi), **Dr. Tanmay Chakraborty** (Assistant Prof. IIIT Delhi) and **Mr. Shad Akhtar** (Assistant Professor, IIIT Delhi). Next **Mr. Ranjan Bose** gave the welcome speech.

Next session was the keynote presentation by **P.N. Vasanti** (Director General, Center for Media Studies). She told, CMS has the distinction of setting up the first Media Lab in India that studies trends in both electronic and print media along with developing strategies, which meet the needs of the media world. She further explained many media channels are showing fake news and fake news go viral immediately. She explained to the participant not to immediately believe, what is shown on media or on any of the social platform. Just go through all the concept and reality behind the information before believing the information.

**Dr. Sriparna Saha** (Associate Professor, IIT Patna) took the next session and explained microblog summarization. She explained social networking sites such as Twitter have become the primary sources for real-time information of ongoing events such as political rallies, natural disasters etc. At the time of occurrence of natural disasters, it has been seen that relevant information collected from tweets can help in different ways. Therefore, there is a need to develop an automated microblog/tweet summarization system to automatically select relevant tweets.

Continuing the workshop there was a presentation by two Ph.D students namely **Shivangi Singhal** and **Sarah Masud**. Both of them explained their research paper and new techniques used in their research to verify the online frauds using Data Science.

**Dr. Deepak Padmanabhan** (Lecturer, Queen's University BelFast) took the session and explained the fake news detection. He said, a plenty of social media platforms are available to exchange information rapidly. Such a rapid propagation and accumulation of information form a deluge, in which it is hard to believe all the pieces of information since it appears to be very realistic. In this context, characterizing and recognizing misinformation, especially, fake news, is a highly recommended computational task as this can mislead others. He explained Data Types for Fake News. He further told, fake news characterization and detection are the computational studies that focus to get rid of the highly malicious news creation and propagation. He then explained Two Families of Approaches i.e ML Approach and DB Approach.

Next **Dr. Tanmoy Chakraborty** (Assistant Professor, IIITD) told about their LCS2 (Laboratory for computational social system). He told all the ongoing working projects and proposed word being carried on in their Lab. He also told about the funding and scholarship received to them from different govt. and private agencies.

In the lunch break there was a poster session in which ongoing research paper of the students of IIITD were shown.

Next **Ms. Anushree Bishnoi** and **Mr. Ankur Pandey**, Founder of Unfound AI took the session. They told about their organization and how they deal will fake news. They told UnFound is a powerhouse of deep learning based Natural Language Processing techniques. They use their own technology to signal content's credibility, fact check claims and surface contrasting viewpoints for a complete understanding of any topic.

Next **Mr. Girish Keshav Palshikar** (TCS Research) and **Dr. Vikram Goyal** (Head and Associate Professor IIIT D) explained the techniques they have used in date science for fake news detection.

Last session of the workshop is the research paper presentation by the PhD student of **IIITD Subhabrata Dutta.** 

Workshop ended with the certification distribution ceremony and vote of thanks by **Dr. Tanmoy Chakraborty.**
