Dear sir,

I am Dinesh Chandra Maurya CSE (2014-2018) batch pass out. I applied for post-graduation at the University of Western Sydney, where they require the English language test score. Therefore, I give them my IELTS (academic) score in which I scored 6.5 overall (6.5 in Listening, 6.5 in speaking, 7 in writing, and 5.5 in reading). Unfortunately, this score is not fulfilling the University English requirements (equivalent to an overall Academic IELTS greater than 6.5 with a minimum of 6.0 in each band).

Therefore, they asked me for MOI certificate from my previous college. Kindly provide me MOI certificate. Please check the attachment below for MOI sample, and I also attached my IELTS score report for your reference.

Students will be supported in finding and securing a placement opportunity, however it must be noted that placements are highly competitive and there is no guarantee of a placement offer being made by an employer.

During a work placement students attend two full day workshops held at the university and will undertake a research project based on the organisation in which they are working.

Students who are unsuccessful in securing a placement within the first 9 months of their programme will automatically be transferred to our business research project module to gain the required credits to complete the MBA. This will be taught in three full day intensive workshops and supported with one to one supervision. Students will have approximately 3 months to work on their project and will complete their MBA programme within twelve months.

The GATE 2021 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,

$M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2021 scorecard

$M_q$  is the qualifying marks for general category candidate in the paper

$\bar{M}_t$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_t = 350$ , is the score assigned to  $M_q$

$S_q = 900$ , is the score assigned to  $\bar{M}_t$

In the GATE 2021 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2021 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.
