ROBOTIC CLUB

The concept and creation of autonomously operating machines dates back a long time, but credible research into the functionality and potential uses of robots did not grow substantially until the 20th century. And today, robotics is a rapidly growing field, as we continue to research, design and build new robots that serve various practical purposes including domestic, commercial and military. Having said that, the Robotics Club of DRONACHARYA strives to stimulate interest in robotics among the students of the institute. Besides making a serious endeavour to spread knowledge on Robotics and its diverse applications, it also stands by the subtle acronym of TEAM - 'Together Everyone Achieves More'. It is this exemplary virtue that has bound the club and helped it to grow to its present potential.

Robotics Club, Dronacharya Group of Institutions, Greater Noida endeavors to build interest in robotics among the students of the college. Students are provided with fully equipped Robotics Lab where students can build their ideas under the guidance of experienced staff members. Club supports and fosters interest in various aspects related to robotics.
